Comprehensive Project Management Workshop

***Online, instructor-led workshop – Early Registration - \$695 if full payment received by 7/4/20!
\$795 after July 4th***

Course delivered online with instructor and meets 8 consecutive weeks, 3 hours per week. Attendees will receive in-depth project management instruction from a certified Project Management Professional who openly shares knowledge and examples from real world experience. The online course provides the opportunity to participate in live sessions and review recordings later, should a session be missed.

Participants examine the role of the project manager and their involvement in managing the life-cycle of a project through defining task, time management, cost estimation, scheduling, and resource allocation. All PMI Knowledge Areas will be covered in the modules presented. Workshop is designed as a blended learning experience with 24 hours of synchronous and 11 hours of asynchronous learning where participants apply various tools and techniques introduced in live sessions. After successful completion of workshop, attendees will be well prepared to take the Project Management Professional, PMP® examination. Course meets the requirements of the Project Management Institute, PMI® and a West Chester University certificate with 35 hours/35 PDUs will be awarded. Additionally, course is approved for grant reimbursement to eligible WEDnetPA participating companies.

Textbook and bank of exam questions not included in cost.
